VOL. LIX: No. 39. REDWOOD CITY, CALIFORNIA, SATURDAY, DECEMBER 27, 1919 ESTABLISHED 1859

DEMURRER IN THE COBURN WILL CONTEST WAS SUSTAINED BY JUDGE BUCK LAST THURSDAY

When Judge Buck on Thursday last sustained the demurrer in the Sarah Satira Coburn will contest he gave the contestants five days to amend the complaint. On Tuesday the new complaint as amended was filed.

The new matter sets forth that Mrs. Coburn knew that each one of the contesting relatives was living and that for many years, up to the time of her death, she was in frequent correspondence with them and had sent them numerous gifts.

The complaint proceeds to say that a short time prior to June 4 last, Mrs. Coburn announced to her friends and to C. H. Widemann that she intended soon to go to Massachusetts to visit relatives; that thereafter she made preparation for the visit and definitely fixed the date of her departure for June 6 last, two days subsequent to her murder.

The next allegation concerns the relations between Widemann, the chief beneficiary under the will, and the two witnesses to Mrs. Coburn's will, Josephine A. Vosti and Andrew Sterling.

It recites that Miss Vosti was Widemann's confidential secretary and that Sterling was his foreman and manager.

It charges that Widemann caused Miss Vosti, at his sole direction and without consulting Mrs. Coburn, to prepare and typewrite the purported will, that she delivered that paper to him for examination, that he examined it, and that "thereafter said Widemann caused said Vosti and Stirling as his employes and servants and agents, and to and for his benefit and on his behalf to present said purported will so prepared to said Sarah Satira Coburn for signature."

Widemann's agent, according to the complaint, represented to the widow that the will was in a form satisfactory to him.

Then the compplaint makes this allegation: "That such great, powerful and undue influence created held and exercised by said Widemann over said Sarah Satira Coburn led her to fail to provide for her relatives excepting Wallace Loren Coburn ,(the imbecile,) and to bequeath the great bulk of her estate and all of her property, even in the State of Massachusetts, to persons in no degree of relationship to her."

The new matter in the complaint charging undue influence does not, on statement of attorneys for the eastern heirs, interfere with their main charge that Mrs. Coburn's will was forged.

MRS. JAS. RALSTON SOLD HER RANCH

Mrs. James Ralston has sold her ranch near San Gregorio to George C. Ross. It contains 142 acres and was sold for $12,000. It is a portion of the famous Ralston ranch consisting of many hundred acres and bordering on the Corte Madera creek about two miles from the La Honda-San Gregorio road. A portion of it is covered with a fine growth of giant redwood trees.

Mr. Ross some years ago purchased two other portions of the ranch consisting of 44 and 33 acres respectively. There are two other small parcels held by relatives of the elder Ralstons.

Mr. and Mrs. Ralston ,the original owners of the farm, now deceased, were hospitable people and here they entertained their many friends of San Francisco and on the peninsula.

Fishing and hunting were of the very best in those days. Many a fine string of trout were caught in the Corte Madera and many were the bags of quail in the dense woods. Quail shooting is still very good on the ranch while the streams are well supplied with fish.

EUGENE PEASE PASSED AWAY AT HIS HOME IN THIS CITY THURSDAY

Eugene Pease, son of Mrs. Val Pease, passed away on Thursday afternoon at his home on Manzanita street following a long illness. The deceased was a native of Redwood City, aged 19 years and six months. He was a great grandson of the late James Pease, the first white settler in Redwood City having come here in 1851.

The young man had been a sufferer for a long time but bore his pain with true Christian fortitude. His death is all the more pathetic for the reason that it makes the fourth that has occurred in the family in a little over a year. The father passed away about five months ago and previous two children died leaving one child and the mother surviving. Owing to the sickness and many deaths the family is in strained circumstances.

The funeral will take place today from the residence at 9 o'clock and mass will be celebrated at Mount Carmel church at 9:30. Interment at Holy Cross cemetery, Menlo Park.

PIONEER'S WISH GRATIFIED, GOES HOME TO MEET LIFE'S PARTNER

The death of Joseph Genochio, one of the respected pioneer residents of this city, which occurred last Monday morning at the family residence on Jefferson street, was coupled with a tinge of sadness which was only augmented by the fact that the Dark Angel beckoned at a time when all the rest of our people were joyous in the midst of Christmas festivities.

But a brief year and a half ago death took from the aged man his life's companion, and as the mother of his children lay stricken with her fatal illness he stood beside her bed and realizing that the end of her was near, said "mama if you have to go I'll go to."

Mr. Genochio was a quiet, industrious, unassuming man whose chief ambition, like that of his wife, was the rearing of their children, of whom six, Antonio, John A., Peter, Louis, Geo. A. and Mrs. Clarence E. Choate, survive. The funeral was held Wednesday morning from the family home, thence to Mount Carmel church where a solemn requiem mass was celebrated and interment took place at Holy Cross cemetery, Menlo Park.

The family of the deceased have the sympathy of a large circle of friends and acquaintances in their trouble.

SENTENCED TO LIFE IN SAN QUENTIN

John Helm, Lawrence McCarthy and Gordon Tescher, who were arrested in Salt Lake City on a charge of having killed Michael J. Needham, San Francisco rent car driver, on the night of October 30, appeared for trial before Judge George H. Buck of the superior court in Redwood City Tuesday and changed their pleas from not guilty to guilty. Judge Buck immediately sentenced them to life imprisonment at San Quentin.

Helm had demanded a separate trial but when the decisionwas reached to plead guilty at the trial he relinquished that right and McCarthy and Tescher appeared with him. Attorney Harry I. Stafford of San Francisco who appeared for Helm made an elequent plea for clemency. He reviewed the case in its entirety, and though admitting that the boys had committed the crime they were charged with, claimed that they did not have a realization of the seriousness of the affair. For the other two men Attorney Christensen, made a very able plea. He grew eloquent in reviewing the case.

Michael Sheehan and Deputy Sherriff McGovern left with the young lads for San Quentin where they will spend the rest of their days.

Helm's father, C. D. Helm of Muncie, Indiana, was present at the hearing, and said, "I am resigned to anything but capital punishment."

OUR SINCERE WISH

To our friends and patrons we wish a very happy and prosperous New Year.

The people of Redwood City and San Mateo county in general, have many things to be thankful for. The year just about to close has been exceedingly prosperous, the health of the people was never better and the coming year is full of hope for all. Many predict that 1920 will be the most prosperous year in the history of the country. The peace is soon to be signed, the strikes that disturbed industrial enterprises for the past six months are soon to be settled and the recent rains augur well for a good crop, so we may look to the coming year with joy and anticipation. The peninsula will see a large influx of new comers during the approaching spring. Even now in the midst of winter every idle house in the county has been leased, large sales of land are being made every day while the inquiries for San Mateo county property is without limit.

Many eastern capitalists are looking to the peninsula to build home and pass their remaining days, after years of toil, in pleasant scenes and surroundings and to enjoy the best climate in the world. The businessman of San Francisco is casting a longing eye towards the peninsula for a residence to spend his leisure hours away from the fogs and winds of the city and to enjoy the bright sunshine which appears all the year around in San Mateo county. We have many things to be grateful for. Let us all rejoice and be happy and return prayers of thanksgiving to Him who provides so well for his favored children.

A DESTRUCTIVE TAX

Secretary of the Treasury Glass says of the excess profits tax:

"It encourages wasteful expenditure, puts a premium on overcapitalization and a penalty on brains, energy and enterprise, discourages new ventures ,and confirms old ventures in their monopolies. In many instances it acts as a consumption tax, is added to the cost of production upon which profits are figured in determining prices, and has been and will, so long as it is maintained upon the statute books, continue to be a material factor in the increased cost of living."

This is the real truth. Nothing has contributed so much to the encouragement of speculative and the decline of productive activity as the existing excess profits tax. It is based upon the doctrine that money invested in a productive industry is a public enemy; while money hid in a sock is deserving of special consideration. At a time when the country should be encouraging the development and expansion of every legitimate business, this measure is paralyzing productive industry. It would be far better to raise all necessary revenue by a general income and inheritance tax than to continue this device for destroying industry.

THE PEOPLE ARE AGAINST THE POLITICALIZATION OF INDUSTRY

Curious indeed it is after the experience the people have had in political operation of railroads, that even delegates to a convention called for the purpose of forming a new party can be induced to propose seriously the fastening upon the country permanently of the policy of politicalized industry. For the first nine months of 1918 the people of the United States had to pay $600,000,000 more in freight charges and passenger fares than in the corresponding months of 1917—with a substantial decrease in traffic. During the first nine months if this year the people had to pay $800,000,000 more for less service than in the same period of 1917 under private ownership. The increased cost of transportation is more than a billion dollars a year, exclusive of losses in operation charged up to the U. S. Treasury.

In the first nine months of 1919, it cost $361,000,000 more to operate the railways than during the corresponding period under private management, and the railways handled 39,000,000,000 fewer ton miles of traffic.

Operating revenue under political management have increased $1,180,000,000 a year since private ownership was abandoned, while operating costs have jumped at the rate of a billion and a half a year. Wage increases now being considered will add a quarter of a billion dollars more to the payrolls of the railways, which are already a heavy charge on the Treasury. This means, of course, increased deficits or increased rates. To meet fixed charges and operating costs it would be necessary to increase freight and passenger rates one-third, and that would probably destroy traffic sufficiently to make the increased tariffs unprofitable, besides doing vast injury to the business of the country.

The people have been paying a heavy toll for their experiment in state socialism. Why should anyone suppose that they are ready for more of what they are already sick of? There never has been a time in the history of this country since the matter was first proposed that there was so little sentiment for political acquisition and operation of industry. Millions of people who formerly favored the experiment are now irrevocably opposed to it. Those who do not understand this are sadly out of tune with the times.

SPEAKING AS A PRESIDENTIAL CANDIDATE

Former Secretary of the Treasury McAdoo has issued a statement declaring that he knew in 1918 from an examination of the income tax statements of the coal companies that they were making "shocking and indefensible profits" in 1917. Why didn't the administration go after the profiteers then, instead of awaiting the approach of a campaign to begin to talk about it? Hadn't the party in power had five years at that time to pass the laws against profiteering they had promised, and if they had passed them didn't they have all the machinery to enforce them? Mr. McAdoo's statement amounts to a confession. But speaking of "outrageous and indefensible profits" what about Mr. McAdoo's hundred thousand dollar a year as a functionary of the movie trust?

ADDED PROTECTION FOR CALIFORNIA WILD LIFE

Added protection to California's fish and game is assured by a co-operative agreement just executed by Game Commissioner Carl Westerfeld of the Fish and Game Commission of California and District Forester P. G. Redington, representing the Federal Forest Service.

"Wild life on the National Forests in California is a resource which, besides being of great economic value, adds materially to the enjoyment of the Forests by the people of the State," says Commissioner Westerfeld in commenting on the agreement.

Since the Forest Service is entrusted with the management of the National Forests, on which both fish and game are plentiful, and since the protection and perpetuation of that fish and game is a duty delegated to the Fish and Game Commission by the State, I consider the co-operative agreement a most happy one," he continued.

The stock of forest streams with trout from State hatcheries and active assistance in the enforcement of all game laws by Forest Rangers, together with provisions by which Game Wardens will receive appointments as Fire Wardens, are points covered by the agreement.

RESTORATION OF THE FRENCH SCHOOL HOUSES

Just before Sequoia Union High School was dismissed for vacation, through the efforts of Mr. O. M. Carrington ,a fine contribution was made by the students for the restoration of the French school houses destroyed in the war. Some 600,006 French children are debarred from school because the school buildings have been destroyed. The Commissioner of Education at Washington has given the work his approval, and schools all over America will generously aid in the enterprise.

The contributions by classes were as follows:

Freshmen	$4.18
Sophomores	4.30
Juniors	2.30
Seniors	3.25
Faculty	3.15
Total	$17.18

The school will receive an engraved certificate and can be sure they have done something worth while for the school children of our brave sister republic so long our friend.

IN KEEPING WITH THE PROGRESS OF THE TIMES

This week the Times-Gazette received three cases of material from the Type Founders and another shipment is expected to arrive soon.

When this equipment is installed we will have one of the best equipped printing offices on the peninsula.

All the type and material is of the latest design, in fact, some of the new faces are not on the coast and will be shipped direct from the factory.

Some of the fine Christmas Cards sent out this season was the product of the Times-Gazette. These cards were printed in colors and was not only a credit to the office but to the town as well. Formerly this class of work was sent to the city, but now all this work can be done here at home at less expense and printed just as you want it.

Our new window card type may be seen in the windows of this office. These samples show only a few of our new faces of type. More new faces have been ordered from the factory in Wisconsin and is expected to arrive in a few days.

MRS. L. F. SERICANO AGREEABLY SURPRISED

Last Saturday evening at her home in Redwood Highlands, Mrs. L. F. Sericano was agreeably surprised, the occasion being the anniversary of her birth. Her husband, who is a San Francisco businessman, sent his wife to the moving picture show early that evening, and during her absence, he, with a number of friends decorated the parlors and dining room and cooked a sumptuous supper. When Mrs. Sericano came back she was indeed surprised and deeply affected by the scene before her. She was the recipient of many gifts as well as numerous well wishes for many returns of the occasion. Dancing and merrymaking was indulged in until 11 o'clock when a palatable supper was served by the guests.

Mrs. Sericano certainly received a surprise of her life, as she did not intend to observe her birthday and did not expect anyone to call upon her. The Sericanos have resided in Redwood City for the past five years and have many friends here. Among those present were: Mr. and Mrs. L. F. Sericano, Mrs. Margaret Cullen, Mr. and Mrs. H. Zimmermann, Mrs. Thomas, Mrs. Mote and daughter, San Francisco; Mr. and Mrs. Rector, Mr. Martin.

There is to be no extra charge for the service from the highway, tickets for either Sunnyvale or Mountain View providing for transportation to the center of town.

The Peninsula Rapid Transit company recently took over the Moreland Truck company's line between Palo Alto and San Jose and is building nine new buses for the additional business.

A BACKWARD UTOPIA

Australia wonders why immigration turns to Canada, Australia and the Argentine, instead of to the immense, fertile spaces of the great southern continent. It is primarily because Australia has had so much class government intended to discourage individual enterprise. The near socialists tell us about the model laws of Australia—but they do not go to Australia, nor do immigrants from anywhere in great numbers, despite the immense area and great natural resources of that country. The United States received more immigrants in 1913 than Australia has welcomed in fifty-three years. Australia is almost the same size and shape as the United States. What it principally lacks is economic independence, brought about by the fostering of business enterprise. If class legislation directed against the employing producer would make a country prosperous, Australia ought to be the richest and happiest country in the world. But Australia is far from that and the very people in the United States who tell us what a wonderful system of laws Australia has, decline to go there to flourish under them, and will continue to do so for the reason that they very well know that these laws sound better than they work.

SOME STATISTICS FROM TREASURER RICHARDSON

State Treasurer Richardson has sent out the following information:

The average rate of interest on state deposits is now 3.34 per cent and the total deposit exceeds nine million dollars, according to a statement of State Treasurer Friend W. Richardson today. This interest rate is maintained despite the competition of many millions of public money which is drawing only two per cent.

Interest rates have been increased during his term from two per cent to an average of 3.34 per cent, with over half the deposits drawing at least 3.50 to four per cent.

"There is a strong demand for deposits" says Richardson, "and if funds were available several million dollars could be placed at 3.50 per cent. There is a total of 250 depositories. Only 17 per cent of the state money is drawing three per cent and this is distributed among 129 of the smaller banks of the state which have had funds for a long time. More than half the total deposits are drawing 3.50 per cent and several banks are paying four per cent

"Most of the counties and cities of the state receive only two per cent for public deposits. State money being on a more permanent basis, commands a slightly higher rate. During the present year all new deposits have been at rates in excess of three per cent.

"The financing of highway construction and other demands have made it necessary within the past few weeks to call in nearly five million dollars and there is no prospect of the state having any surplus money until the franchise taxes come in about February first. More than a million dollars must be paid this month for interest and principal on state bonds."

Electric Cleaners Safeguard Health

Carpets, rugs and draperies are germ catchers and carriers. There is only one effective means of eliminatiog them. Beating and sweeping merely stirs up dirt, to let it settle again.

THE ELECTRIC VACUUM CLEANER cleans. It digs down deep into the texture of the carpet, and pulls out and collects all the germ laden dirt, so it can be carried out of the house.

There is no back-breaking labor. You merely turn the electric switch and run your sweeper. In little or no time the sweeping and dusting part of the house cleaning job is simply, easily accomplished.

The cost of current is a mere triffle—the amount that one Mazda Lamp would use in the same amount of time. Ask your contractor-dealer for a demonstration and explanation of his term payment plan.
